Norway's Number one Telecommunications Provider Chooses Omada for Identity and Access Governance

Country: Norway

Industry:
Telecommunication

Solution:
Omada Identity and Access Governance solution.

Omada, the market-leading provider of solutions for advanced identity management and access governance, has been chosen to implement an identity and access governance solution for Norwegian telco Telenor, providing Telenor Norway with a full solution for 15,000 identities.

Telenor Norway is highly focused on IT security and therefore has focus on security requirements in an identity and access governance solution. Omada was among others selected because of our Omada Security approach and being able to meet the company's high IT security requirements.

Ensuring GDPR compliance
The Norwegian telco likewise sought a solution which would support them in their ongoing work to ensure governance and compliance with the latest regulations, among others the General Data Protection Regulation (GDPR).

Norway's number one telecommunications provider
Telenor Norway is part of the Telenor Group. Telenor's wholly owned Norwegian mobile operation is the country's leading telecommunications operator and Telenor's service portfolio in Norway includes fixed and mobile telephony, broadband and data communication services for residential and business customers, as well as a broad range of wholesale services. Telenor Norway is Norway's leading supplier of tele and data services, the number one telecommunications provider in the country, and has 2,994 million mobile subscriptions.

About Omada
Since 2000, we have focused on using identity to create business value – measurable value, from IT and HR to marketing and sales. Identity, managed the Omada way, simultaneously improves security, efficiency, cost control and regulatory compliance throughout any organization. And it can do even more. Identity can accelerate digital transformations, smooth M&A integration, and enable deeper relationships with suppliers and customers. Few technologies have the potential to impact so much. Belief in this essential role of identity unites our organization, fuels our innovation, and strengthens our collaboration with partners. We've pioneered many of the best practices in use today, and we're passionate about taking identity management even further. We are committed to using identity to create business value. Omada has operations in North America and Europe, delivering solutions directly and via a network of skilled partners and system integrators.

About Omada
Founded in 2000, Omada is a fast-growing, independent IT company with offices in Europe and North America. Omada provides identity management and access governance solutions and services. Omada's innovative product portfolio offers customers an integrated set of core services including identity lifecycle management, compliance control, provisioning, and access risk management.
